

Coda W

Wireless HiFi Speaker

For over 60 years, KEF has been defined by a relentless pursuit of unrivalled high-fidelity sound. With the commitment on acoustic excellence and obsession with creating immersive audio experiences, every speaker is engineered to deliver pristine, natural sound. Honouring the original Coda speaker series, which made high-fidelity sound much more accessible, Coda W builds upon that pioneering spirit with modern refinements. It blends KEF's renowned acoustic excellence with thoughtful, contemporary design. The result is an all-in-one speaker that delivers high performance, seamless connectivity, and intuitive usability – making high-fidelity sound effortlessly available to today's listeners.

The exceptional acoustic performance of Coda W is powered by KEF's 12th generation Uni-Q® driver array, delivering precise and natural sound reproduction. Featuring the latest Bluetooth® 5.4 aptX™ for seamless wireless streaming, an integrated phono preamp for direct turntable connection, and versatile connectivity for TVs, desktop computers, and beyond, it offers uncompromising flexibility. Available in five carefully curated finishes, each blending distinctive character with timeless appeal, catering to a wide range of aesthetic preferences.

High-fidelity sound

At the heart of the Coda W speaker lies a large 5.25-inch 12th generation Uni-Q® driver array, delivering remarkably detailed performance. This cutting-edge technology is the result of decades of KEF's acoustic expertise, backed by advanced simulation and precision engineering. This signature technology acts as a point source, with the tweeter positioned at the precise acoustic centre of the woofer, recreating how sound is produced naturally. This ensures uniform dispersion throughout the room, creating an exceptionally natural and immersive listening experience.

Coda W offers a combined 200 watts of system power. Both the primary and secondary speakers are equipped with dedicated amplifiers for the tweeter and woofer, delivering roomfilling sound from the compact cabinets. To refine performance even further, KEF's Music Integrity Engine®—a proprietary suite of DSP algorithms—has been specially tuned for Coda W, enhancing overall performance by providing remarkable sound integrity, detail, and accuracy. Leveraging Bluetooth® 5.4 aptX Adaptive™, Coda W offers high-quality, low-latency audio for seamless listening, delivering exceptional clarity and a reliable connection. The aptX Lossless™ codec supports CD-quality resolution up to 16-bit/44.1 kHz, enabling the speakers to reproduce sound with impeccable clarity and dynamic range while preserving the pristine details of your favourite music.

Plug-and-play with turntable, TV, or more

Coda W is engineered for seamless integration into any lifestyle, offering the freedom of wireless streaming and versatile wired connectivity. It excels both modern and classic audio sources, serving as a hub for high-fidelity sound.

For a modern listening experience, Coda W allows you to stream music wirelessly from a phone, tablet, or laptop. Bluetooth connectivity ensures a simple, convenient pairing process and the freedom to play audio instantly.

Coda W effortlessly embraces classic analogue sound. It is turntable-ready, featuring an integrated phono pre-amplifier that connects directly to most turntables without the need for additional equipment. For turntables with a built-in phono preamp, Coda W also supports RCA (LINE) input, offering flexibility across different setups. This allows listeners to rediscover the authentic warmth and depth of their vinyl collections.

Summary of features

- 5.25" 12th Generation Uni-Q driver array for accurate, pristine sound
- Music Integrity Engine® (MIE) – KEF proprietary DSP algorithms enhance sound integrity and detail
- Plug-and-play connectivity for almost all turntables (RCA (Phono) with Integrated phono preamp)
- Bluetooth® 5.4 aptX Adaptive™ for high-quality and low-latency audio
- aptX Lossless™ support for CD-quality resolution up to 16-bit/44.1kHz over Bluetooth
- Extensive connectivity for TV, desktop, and more (USB-C, HDMI ARC, optical, RCA (Line), subwoofer output)
- System power: LF 70W Class D, HF 30W Class D, Max. SPL:102dB
- Optional 8m C-Link interspeaker cable for versatile speaker placement
- SQ1 Floor Stand is available as a separate accessory
- Available in 5 finishes: Vintage Burgundy, Nickel Grey, Moss Green, Midnight Blue, and Dark Titanium

With HDMI ARC connectivity, Coda W easily connects to your TV, making it simple to set up a home theatre system. Featuring a USB Type-C port input, it elevates your computer audio and supports high-resolution audio decoding up to 24-bit/192kHz. For further flexibility, an array of additional inputs, including RCA and optical, accommodate sources such as CD players, Blu-ray players, and game consoles, establishing the Coda W as a truly versatile audio hub.

For those desiring deeper bass, Coda W includes a dedicated subwoofer output for easy connection to a compatible KEF subwoofer. This is ideal for enhancing your home theatre experience on movies or enriching music with extended low-frequency response. For greater placement flexibility, the optional KW1 wireless subwoofer adapter kit enables a pristine wireless connection, eliminating cable clutter.

Instant control at your fingertips

Designed for seamless operation, Coda W features intuitive top-panel buttons for quick access to essential functions and source switching. The KEF Connect App puts complete control at your fingertips. Select EQ presets to match your taste, manage speaker settings, update firmware, and explore the latest features—all from a single, intuitive interface.

Timeless design meets acoustic precision

Coda W embodies minimalist elegance through its clean, rectilinear lines and subtle detailing, offering a timeless silhouette that blends vintage charm with modern refinement. It brings understated elegance to your living room, home studio, study or reading nook, enhancing each space with sophistication.

Designed for both visual harmony and acoustic performance, Coda W is available in five curated finishes: Vintage Burgundy, Nickel Grey, Moss Green, Midnight Blue, and Dark Titanium. Each finish is selected to integrate naturally into a wide range of interiors while making a distinctive stylistic statement.

A 3-metre interspeaker cable is included as standard. For greater flexibility, Coda W is also compatible with the optional 8-metre C-Link interspeaker cable, allowing for customised speaker placement to suit any room configuration. Additionally, Coda W can be paired with the optional SQ1 floor stands, which offer a stable platform for elevated positioning and optimal listening height.
